THE BEST UNDERGROUND LOCATORS IN THE MARKET

AML All Materials Locator

Find Buried non-metallic pipes inclusive of PVC/PE using advanced digital patented technology with an ultra high radio frequency signal to identify changes in density on underground objects.

ML Magnetic Locators

All-inclusive magnetic locators with simple, one-handed operation, offer durable and rugged construction with 4 different models to cover all locating needs. IP-68 rated on the ML-3 models.

LD Leak Detectors

The AquaTrac® has all the necessary functions for the acoustic detection of water leaks in buried pipes. A detector that is easy to use and optimized for ground "miking" on streets & concrete slabs.

PL Pipe & Cable Locators

Simple, accurate, lightweight and technologically advanced. The PL-VF utility pipe and cable locator systems will meet the demands of any locating task.
