# The Best Equipment for **Water Leak Detection!**

**AQUA  
TRAC**®  
Water Leak Detector

The AquaTrac® is specially designed to detect water leaks on buried pipes & conducts through its highly sensitive microphone and electronic board's advanced technology. An affordable and easy to learn option for contractors and small business.

## **LD-12**

Our best selling leak detector. Easy-to-use, optimized for ground "miking" on streets, concrete slabs, meters & valves. Comes with David Clark headphones, the best quality on the market.

## **LD-18**

Advanced "Pinpoint" technology finding water leaks at their exact location. Offers automatic noise reduction from intermittent interfering noises, such as passing vehicles. With David Clark headphones and USB connectivity for graph result printouts.
